

# Utah Code Net

June 2012

Time: 7:30 pm Daily

Winter: 0230 Z Summer: 0130 Z

Frequency: 3570 KHz; 3571 KHz on Wed local

Code speed: 12 wpm; however, the Net Control Station will match the speed of slower operators.

Purpose of the net: Traffic Handling. Our relatively slow code speed is designed to allow the less experienced operators to gain confidence in CW traffic handling techniques.

Section Manager: NM7P  
Section Traffic Mgr: NA7G  
UCN Manager: NA7G  
Section Emerg Coord N7GTE

NCS = Net Control Station  
UCN = Utah Code Net  
TWN = Twelfth Region Net (3570)  
PAN = Pacific Area Net (3552 W, 7052 S): 9:30 pm local

TWN/E Mgr: NA7G  
TWN1: 8:30 pm local  
TWN2: 10:00 pm local

	SUN	MON	TUE	WED	THU	FRI	SAT
NCS	K7OA	NA7G	K7JHM	K7JHM	NS7K	W7DML	OPEN

For changes or corrections, notify NA7G  
KØEZ to be notified of changes to the TWN/E schedule  
as well as NA7G

The UCN meets on 3570 KHz, unless ongoing QSOs make it necessary to move. On Wednesday, for example, there is an east coast net that is in session on 3570; we meet on 3571 on that night. An Oregon CW net meets nightly on 3569; occasionally we need to move up a little. All stations should zero-beat the NCS, so the NCS can hear you easily, and to avoid possible interference with other nets.

Look over the roster on the next page closely: Are there any changes or additions you would like to make? Let NA7G know. Email address: [na7g@arrl.net](mailto:na7g@arrl.net)

73,

Jim NA7G  
NM, UCN
